Ward of Hospital For Insane Slayers Destroyed by Fire

Short Circuit Starts Fire on Ward's Island, Zero Weather Does Rest-Attendants Make Brave Effort to fallen tank. Rescue Lunatics.

NEW YORK, Feb. 19.—Eight en-quirtes were under way today into the ragedy on Ward's Island, a little-jutting rock in the swirling waters of Hell Gate where yesterday's fire swept a ward of the Manhattan Hotpital for the insune, hilling 22 patients and three attendants. Nincteen bodies had been recovered before dusk and removed to a morgue but six more remained in the ice-covered ruins. These, it was said. had been cremated. The bloze was believed to have been started by a blast in Hell Gate which broke the insulation on the wires, causing a three stories high, and has accom-short circuit. Hospital authorities and City Med-

ical Examiner Norths, who rushed to the scene, said that in all probability the blast had been the immed ate cause of the fire. According to their theory, it caused a break in the in-sulation of electric wires in the actic of the building. A short circut, they think, did the rest.

The fire was discovered at 5:05 o'clock by Michael Campbell, an attendant in ward 43, in which all the fatalities occurred. His calm, heroic work, and that of James Hill, attendant in charge, and Patrick Biligan, of Hartford, Conn., George A. de Emo. and George Freiss, the three attendants who were burned to death, pre-

Campbell manned a hose line and fought back the flames, while the others, directed by Hill, ran up and down the 200 feet top floor corridor. rousing the patients with the cool or-der: "All up for breakfast."

As fast as the maniacs, declared by Supt. Marcus Heyman to have been the most dangerous en the islandcould be marshalled from their rooms, they were marched in orderly procession to the fire proof dining hall, far from the scene of the fire. Seventy of the 92 inmates of ward 43 had been led or carried to safety when a huge water tank in the blaz-

figures and smoke. City firemen, fighting their way past the blazing parriers, brought out several strug gling screaming maniacs, and several who had been overcome by smoke while dressing for the "breakfast." Most of the dead were found in the rooms and corridors beyond the fallen tank. Several were believed to have been hurled beneath debris when the floor gave way.

Public Now Prefers Vegetable Laxatives

Dr. Caldwell's Syrup Pepsin affords prompt relief in a materal way

THE public is constantly be-Leoming more discriminating in its choice of things. Those subject to constinution try to learn what makes them constipated, and then avoid it. If con-

stipation persists in spite of all their efforts they take the mildest. most easily tol-erated laxative obtainable, and not a drastic physic that upsets them for days alterwards. As

over 10 million bottles of Dr. Caldwell's Syrup Pepsin are sold a year, a large proportion of the people of this country must behere that this mild vegetable compound is the proper remedy for them, and so it is: No need to take salt waters and powders that dry up the blood; coal-tar drugs in candy form that produce skin cruptions, or calomel that salivates. These drugs are "heroic measures", over-effective, weakening and griping.

The best constipation remedy is the one that moves the bowels without shock to your system, and such a one is Dr. Caldwell's Syrup Pepsin. It is a vegetable ANY FAMILY MAY TRY IT FREE

Thousands of parents are asking lieuwelees, "Where can I find a trustworthy laxature that anyone in the family can use when constipuled?" I urge you to try living Persin. I will gladly provide a liberal free cample bottle, sufficient for an adequate test. Write me where to send it. Address Dr. W. B. Caldwell, 515 Washington St., Montwello, Illinois. Do it nou!

compound of Egyptian senna and pepain with pleasant-tasting aromatics, and has been satisfactorily sold for 30 years. Unlike the harsher physics it does not produce a habit, and increased doses are not required; in fact, it so trains the stomach muscles that in time medicines of all kinds can be dispensed with.

Many take a teaspoonful of Syrup Pepsin once a week as a health saleguard. Others use it only when required, as, for example, Mrs. J. W. Borroughs of Little Rock, Ark., who finds it equally valuable for herself and the children, and Mr. Enss S. Coeta of Watsonville, Cal, whose family uses it regularly. Try Dr. Caldwell's Syrup Pepsin in constipation, biliousness, piles, headaches, sallow complexion, and to break up fevers and colds. A generous-size bottle can be had at any drug store, and it costs only about a cent a dose!

Why they call it— "The milk that good cooks use"

"How can I make these things I cook richer, more tasty, and yet keep down the cost?'

Because, like other home cooks, you have asked yourself that question time after time, we know you'll be interested in the milk that thousands of women have singled out as the very best kind for cooking usethe milk that in many localities is generally spoken of among housewives and grocers as "the milk that good cooks usc."

Particularly since you can get it now at a nearby grocery store.

"From famous pasture lands" Certain sections of this country, as you know, are famous for their dairy products. And it's true of these sections, as you've heard, that dairymen there are constantly competing with one another to see who can raise the finest herds, produce the richest milk.

The cows, of course, are given the best of feed, in summer and winter, are milked in model barns-and only those are kept that give large quantities of rich and wholesome milk.

It is in the heart of these fine dairy sections that Libby's condenseries are placed.

Receiving this milk daily, we test it ourselves and then evaporate it, removing more than half the moisture, to make it double rich. Nothing

is added to it. It is sealed and sterilized in air-tight cans—for only thus can it be brought safely to you who live, perhaps, many hundreds of miles away.

Try it tonight and see what a difference it makes

A Plain Statement!

It has recently come to me that some who oppose my candidacy for the State Senate have continued to circulate the rumor that I propose to annex certain territory to the City of Danville. I had thought that such a rumor would be its own denial -and still think so when the facts are called to the attention of the thinking people of this district.

1—Such a thought never entered my mind.

2-I know of no one who is favorable to or has suggested such annexation; certainly I do not favor it.

3—Under the Constitution and laws of Virginia the legislature of Virginia has absolutely no authority to enact a law annexing territory to Danville or any other City. Such question is one solely for the Circuit Court of Pittsylvania County. Can be decided by that Court and that Court only; presided over by a judge to be named by the Governor; such judge to be remote from the territory affected:

The Constitution of Virginia, Section 126, specifically prohibits the legislature from passing a law annexing any territory, or making any provision therefor to fit a special case.

How then can I do what is charged to me? Is it not plain that such rumors are for vote getting only?

4—But in any event should there be any circumstance or law not known to me come before the legislature any measure having for its object the annexation of territory to Danville or tending to make annexation in any way less difficult, I should oppose it on the floor and vote against it.

MOVIE FOLKS TO CAPER AT EXPOSITION

Hollywood is all excited about a big motion picture exposition to be held in Los Angeles in July. No wonder .- the girls shown above are just one of the teams which will appear in a revue showing development of the dance from Mother Live's time to date. These ladies are shown reliefasing a "modgrn period" number.

Nothing worries Robert M. LaFoliette, U. S. Senator from Wisconsin, now that the war is over-no, not even the obstruction of his Republican associates agrainst him and his progressive bloc. These pictures show it. He had his well-known smile before the war, as shown at left, then it faded, center, and when all the trouble over there was over, back came the smile, right.

PEOPLE INCREASE FASTER THAN DO THE LIVESTOCK

(By The Associated Press.)
WASHINGTON, Web 17—The human population of the United Listes har increased at a inuen greater tate than livestock, and the Department of Agriculture is concerned over the increasing difficulty in supplying the population with sufficient meas while maintaining a surplus of meat pro-

daits for export. There were almost five times as many people in the country it the beginning of this year as there were in 1800 but the number of head of twestock lid not even doubled agricultural expents report after a study o. statistics back to 1850 the human pop-I can year the Census Pureau estimilds the population as 109,753,917 All cuttle sneep and swice in 1850 totaled \$4,800 000 and on lanuary 1 this year the number was 166 935,000 In 1550 there were 131 hogs for every 100 of population. This year there are 58.
